

# NOTICE

## Construction/Demolition in Your Neighborhood

### What's Happening

Address: \_\_\_\_\_

Expected Start : \_\_\_ / \_\_\_ / \_\_\_\_\_ Expected End : \_\_\_ / \_\_\_ / \_\_\_\_\_

Description of Project: \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

What will be done to control dust during the project: \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

Property Owner(s): \_\_\_\_\_

Construction / Demolition Contractor(s): \_\_\_\_\_

The dust control measures listed above should keep any dust created from the project from leaving the project site. **If you notice dust leaving the project site, call Air Management Services at 215-685-7580 or 311. They will inspect the site.**

If you would like to take extra precautions to keep dust out of your home, the Health Department recommends the following:

- Keep windows and doors closed if possible while construction / demolition is happening.
- Install weather stripping around doors and windows, and door sweeps on exterior doors.
- Regularly check, clean, and replace filters on forced air heating / cooling systems.
- Minimize time spent outdoors near project site when construction / demolition is happening.
- Remove your shoes before entering your home.
- Wash your hands after coming inside.
- Vacuum your floors.
- Wash down or sweep your front steps.
